3. Vasil Kolarov Electro-Technical High Tension (Silnotokov) Plant. This plant was constructed in 1950 or 1951; it produced electromotors from 1/10 hp to 100 hp or more. These electro-motors were exported to China, according to Sofia newspapers. Other products were: transformers and circuit-breakers (switches). There was an estimated total of 500 workers at this plant.

50X1

the plant machinery was of good quality but broke down often because of poor handling and carelessness. The plant consisted of one large building, 100 m. x 20 m. x 12 m.; it was built of reinforced concrete and had a saw-tooth glass pane roof; electro-technical equipment was produced in this building. A smaller building, 15 to 20 m. x 10 m. x 10 m., brick with a tile roof housed the plant administration offices. A two-meter-high barbed wire fence enclosed the plant premises.

4. The road to Iliyantsi (N 42-45, E 23-18) was six meters wide, cobblestone, in good condition with one half meter drainage ditches; it had moderate truck traffic.
5. Plant-complex of several five-or six-meter-high brick buildings which produced lathes, planers, cog cutting machines and shapers. 50X1
50X1 [redacted] machine tools were exported to China but were occasionally returned because of inferior quality and faulty performance. 50X1
50X1 [redacted]
6. Georgiy Dimitrov Rubber Factory, (formerly called "Bakish") . 50X1
50X1 This plant produced tires for automobiles, trucks, and bicycles. 50X1
50X1 According to source, it is the largest enterprise of its type in Bulgaria. [redacted]
[redacted]
7. A rail line, single track, which led from Sofia to Stalin (formerly Varna). The railroad was in excellent condition and under constant maintainance. It had heavy freight and passenger traffic. 50X1
[redacted]
